

# FREE Software upgrade

timeware 5 / Auto:Time Premium ( Access 97 ) users can now convert their existing systems and data **free** of charge to:

# the latest timeware 2011 SQL Software

Includes - **FREE** Microsoft SQL 2005/8 Express Edition  
Upgrading opportunity at its best, its now or never!!

Newsletter - July 2011 - t5

## Reasons to upgrade

\* Latest SQL technology \* Windows 7 Compatible \* Server 2008 Compatible

Microsoft have encouraged software houses to write in SQL for the last few years because of its speed, secure data encryption and reliability across networks. Now that Windows 7 and Server 2008 have become widely accepted, new problems have arisen from customers upgrading PC's and experiencing incompatibility issues with their existing system caused mainly by its Access 97 database used by timeware 5 / Auto:Time Premium.

### New Features:

- Diarised Agenda with screen pop up alerts for daily events.
- Year planner with absence clashing facility for holidays, sick, first aiders etc.
- "PIP" - Internet log on for staff & supervisors to check absences / attendance information and make requests.
- "Email Me" - auto reports for employers or employees.
- Health & Safety - Fire roll call with alarm linking and auto door release.
- Fire Assembly point terminals and zoning.
- Advanced HR with pop up expiry alerts.
- Reports - PDF or Crystal format plus **free** report generator added.
- Planner module to plan difficult shifts changes in advance.
- Bespoke rules - no rule is too big to tweak your individuals requirements!
- Clocking terminals - support for biometric fingerprint, hand punch and GSM modems added with backward compatibility to old terminals.
- IT - System failure email alert and monitoring tools.
- Dozens of exciting new features and enhancements.
